

CORPORATE LMS

Green Corporate LMS creates a virtual LEARNING AND DEVELOPMENT space where Learning is automated and ROI is optimized and employee's skill competencies are achieved.

Easy Intergration with Zoom, GMeet etc

Its important that your LMS should be able to deliver blended training with online conferencing tools.

01

Session Intimation and Calendar

One can easily see the no. of classes and session along with the topics to be covered in the session with timings of the session

02

Attendance and notification

Each session records attendance of the learner and also notifies if someone has not attended the same

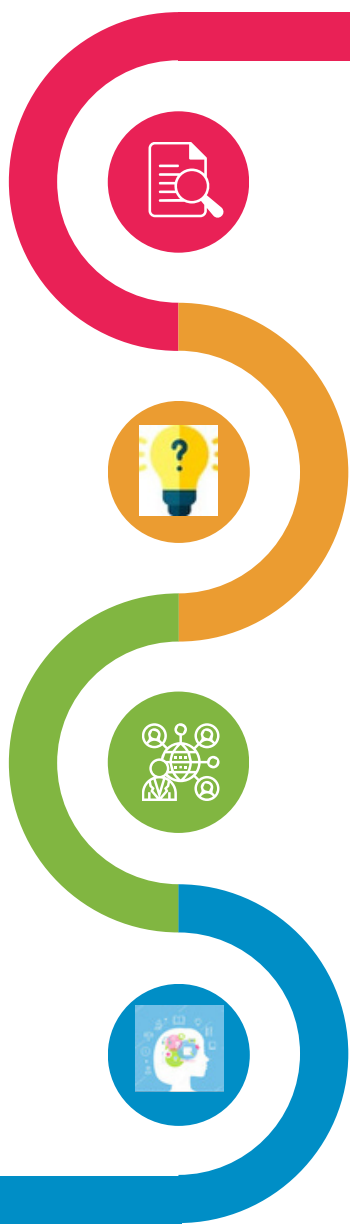

03

Learning Path, Setting Competency and Automatic Course Promotion

Create Competency and accordingly set the Learning path for the learner and Once the learner completes the defined course as per the grading system automatically they get promoted to next course.

04

Reports and Analytics and Custom Report options

Easily track and analyse the reports of your learner and give improvisations. You can even customize to get reports of the micro progress of the learner

05

Quizzes and Assignments

Create Gamified Quizzes and Interesting assignments using our creative authoring tools

06

Socialising and Social Wall

Easy to create groups and Teams and coordinate, learners can privately chat among the themselves and with the trainer. Organisation shall have its own Socaial wall similar to facebook.

07

Differential Learning

Learning is a holistic process and each learner is unique in their own abilities, feature of differential learning from Green LMS makes it possible to provide online holistic development of the learner.

08

Green LMS is highly customizable, can be easily integrated with any ERP or Businesses & Enterprises software with Single Sign On
